TOWN COUNCIL AGENDA REPORT

TO: Mayor and Councilmembers

FROM/PHONE: Mark Kutney, AICP, Development Services Director/(954) 797-1101

SUBJECT: Ordinance 1st Reading/Quasi-judicial
ZB 12-1-01 Bradford Marine Inc./Cosman, 3051 State Road 84/Generally
located on the north side of State Road 84 one mile east of State Road 441

AFFECTED DISTRICT: District 1

TITLE OF AGENDA ITEM: AN ORDINANCE OF THE TOWN OF DAVIE, FLORIDA, APPROVING PETITION ZB 12-1-01, CHANGING THE CLASSIFICATION OF CERTAIN LANDS WITHIN THE TOWN OF DAVIE FROM C-1, COMMERCIAL (BROWARD COUNTY) TO M-2, MEDIUM INDUSTRIAL DISTRICT; AMENDING THE TOWN ZONING MAP TO COMPLY THEREWITH; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE

REPORT IN BRIEF: The applicant is requesting to rezone the 14.65 acre subject site from C-1, Commercial (Broward County) to M-2, Medium Industrial District, in order to permit boat building and repairs. The site contains an existing boat building and repair business that is a legal nonconforming use. The C-1, Commercial (Broward County) district does not permit boat building and repairs, and the M-2, Medium Industrial District does permit such use. The permitted uses and conventional nonresidential development standards for the M-2, Medium Industrial District were specifically amended in order to accommodate this use by ZB(TXT) 3-3-00. In addition, the applicant has offered voluntary deed restrictions that prohibit auction houses, processing facilities or storage of cement, concrete, lime, and petroleum refining.

The request is not in conflict with Comprehensive Plan or any element thereof. The subject site meets the Land Development Code's conventional nonresidential development criteria for the M-2, Medium Industrial District. The property was annexed into the Town in 1984 with a Broward County commercial designation, and it is policy to rezone property so that it can be regulated by the current standards of the Town of Davie Land Development Code.

It is noted that the Declaration of Restrictions will prohibit uses that are undesirable at this location. The request will not create automobile traffic in excess of that which was anticipated by the underlying Industrial land use classification. The proposed rezoning does not create an isolated zoning district and is consistent with the adjacent existing and planned uses. The proposed use can be considered to be in harmony with the general intent and purpose of the code, and will not be detrimental to the public welfare.

APPLICATION DETAILS

The applicant is requesting to rezone the 14.65 acre subject site from C-1, Commercial (Broward County) to M-2, Medium Industrial District, in order to permit boat building and repairs. The site contains an existing boat building and repair business that is a legal nonconforming use. The C-1, Commercial (Broward County) district does not permit boat building and repairs, and the M-2, Medium Industrial District does permit such use. The permitted uses and conventional nonresidential development standards for the M-2, Medium Industrial District were specifically amended in order to accommodate this use by ZB(TXT) 3-3-00. In addition, the applicant has offered voluntary deed restrictions that prohibit auction houses, processing facilities or storage of cement, concrete, lime, and petroleum refining.

Applicable Codes and Ordinances

1. Section 12-307 of the Land Development Code, review for rezonings.
2. Section 12-83 of the Land Development Code, Conventional Nonresidential Development Standards, M-2, Medium Industrial Districts, requires minimum lot area of 35,500 square feet, minimum lot frontage of 100 feet, minimum setbacks of 25 feet from all street lines, 50 feet from property lines adjacent to areas zoned, occupied or Land Use Plan designated residential, 10 feet from property lines adjacent to areas zoned, occupied or Land Use Plan designated for nonresidential uses, 125 feet from all property lines for the manufacture, storage or processing concrete, cement and lime, and for heavy manufacturing, fabrication and industrial uses, excluding yacht manufacturing and repair; maximum building height of 35 feet, the maximum height of all yacht manufacturing and repair, and marina uses shall not exceed 40 feet in height.

3. Section 12-32(C) of the Land Development Code, Table of permitted uses for Business Park and Industrial General Use.

Comprehensive Plan Considerations

Planning Area: The subject property falls within Planning Area 7. This Planning Area, the smallest of the planning districts, encompasses what was once Hacienda Village. Bordered on the north by the North New River Canal and on the south by state Road 84, the area stretches approximately one mile east of SR 7, and includes the Hacienda Flores and Pond Apple Slough wetland mitigation sites.

Broward County Land Use Plan: The subject site falls within Flexibility Zone 58.

Applicable Goals, Objectives & Policies: Policy 9-1: The Industrial category shall provide for the development of diversified facilities necessary to promote strong economic and employment bases for the Town.

Policy 9-2: The Town shall endeavor to expand its economic base through expansion of the industrial and manufacturing sectors of its economy.

Policy 9-4: Industrial land uses shall be located with access to primary transportation facilities, particularly interstates, highways, rail corridors, commercial airports, and navigable waterways. Consistent with Policy 9-2, vacant land with such access shall be examined for potential industrial development.

Staff Analysis

The purpose of this rezoning request is to allow the property owner to further utilize the existing boat building and repair business which has been present on the subject site since 1966. The request is not in conflict with Comprehensive Plan or any element thereof. The subject site meets the Land Development Code's conventional nonresidential development criteria for the M-2, Medium Industrial District. The property was annexed into the Town in 1984 with a Broward County commercial designation, and it is policy to rezone property so that it can be regulated by the current standards of the Town of Davie Land Development Code.

It is noted that the Declaration of Restrictions will prohibit uses that are undesirable at this location. The request will not create automobile traffic in excess of that which was anticipated by the underlying Industrial land use classification. The proposed rezoning does not create an isolated zoning district and is consistent with the adjacent existing and planned uses. The proposed use can be considered to be in harmony with the general intent and purpose of the code, and will not be detrimental to the public welfare.

Findings of Fact

Rezoning:

Section 12-307(A)(1):

The following findings of facts apply to the rezoning request.

- (a) The proposed change is not contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;
- (b) The proposed change will not create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;
- (c) Existing zoning district boundaries are not logically drawn in relation to existing conditions on the property proposed for change;
- (d) The proposed change will not adversely affect living conditions in the neighborhood;
- (e) The proposed change will not create or excessively increase automobile and vehicular traffic congestion above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety;
- (f) The proposed change will not adversely affect other property values;
- (g) The proposed change will not be a deterrent to the improvement or development of other property in accord with existing regulations;
- (h) The proposed change does not constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;
- (i) There are substantial reasons why the property cannot be used in accord with existing zoning.
- (j) The proposed zoning designation may be the most appropriate designation to enhance the Town's tax base given the site location relative to the pattern of land use designations established on the future land use plan map, appropriate land use planning practice, and comprehensive plan policies directing land use location.

Staff Recommendation

Recommendation: Based upon the above and the finding of facts in the positive, staff recommends **approval**, of petition ZB 12-1-01.

Planning & Zoning Board Recommendation

At the February 13, 2002 Planning and Zoning Board meeting Vice-Chair Bender made a motion, seconded by Ms. Moore, to approve (Motion carried 4-0, Mr. Waitkus was absent).

Re: Rezoning Request

To Whom It May Concern:

Bradford Marine, Inc. (Bradford Marine) hereby requests the rezoning of our site from C-1, Commercial, Broward County to the Town of Davie's M-2, Medium Industrial District designation. There are no modifications being proposed for the site. This request is being made so that the zoning designation is consistent with the utilization and land use classification of the property. Bradford Marine has been in business at this site since 1966. Bradford Marine specializes in the mega-yacht repair business serving over 700 customers per year and is an asset to the tax base of the Town of Davie. The Bradford Marine site consists of approximately 14.65 acres or 638,000 square feet of which 17,724 square feet is utilized for office space and workshops and 256,750 square feet is utilized for covered boat slips.

Pursuant to the criteria contained in Section 12-307 of the Town of Davie Land Development Code, Bradford Marine believes there is just cause to change the site's designation to M-2, Medium Industrial District. Below are the reasons why the requested zoning change should be granted:

1. The proposed change is not contrary to the adopted comprehensive plan, as amended, or any element or portion thereof. The change will correct the inconsistency with the commercial zoning and industrial land use.
2. The proposed change will not create an isolated zoning district unrelated and incompatible with adjacent and nearby districts. The change will be to the same designation as the adjacent property to the west.
3. Existing zoning district boundaries are logically drawn in relation to existing conditions in the property proposed for change.
4. The proposed change will not adversely affect living conditions in the neighborhood.
5. The proposed change will not create or increase automobile and vehicular traffic congestion or otherwise affect public safety. No changes to the site are proposed.

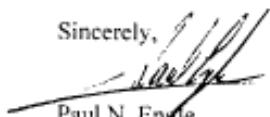

December 17, 2001
Town of Davie
Page 2

DEC 17 2001

6. The proposed change will not adversely affect other property values. On the contrary, a site with consistent zoning and land use will increase property values.
7. The proposed change will not be a deterrent to the improvement or development of other property in accord with existing regulations. The current zoning does not provide for what is existing on the site. The proposed change will allow for any future improvements.
8. The proposed change will not constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public. Any property owner has the right to request a zoning change to a designation consistent with a site's land use.
9. There are substantial reasons why the property cannot be used in accord with existing zoning. The current zoning is a commercial category of Broward County, which is not consistent with the industrial land use classification. Furthermore, this zoning district does not provide for boat building and repairs.

In conclusion, Bradford Marine finds that it meets the criteria that is required for rezoning and asks that approval of the request be granted.

Sincerely,

Paul N. Engle
President
